

LEONARD AND DUNDEE ANGRY

Dispute Over Last Battle May Lead to Another; Marathon Route

Milwaukee, Wis., June 26.—Johnny Dundee, the New York Italian lightweight, and Benny Leonard, another star lightweight of that city, are having a war of words in regard to the various decisions rendered by the newspapers in their 16-round contest last week. Many of the papers called it a draw, others favored Dundee and still others, Leonard.

Good judges of boxing did not hesitate to say that it was really a good draw. Leonard, however, is determined to have the men engage in a 20-round contest to a decision. Scotty Montgomery, manager of Dundee, has announced his willingness to make a match over the marathon route, so that there can be no argument as to who is the better man. It is only one more case where the 16-round no-decision rule gives high class men little chance to settle disputes of that kind.

A Good Amateur on Coast.

There is an amateur heavyweight boxer in California whose critics think can beat any man in the world. The new heavyweight is "Fat" Wheeler, of San Francisco. He has had numerous ring encounters as an amateur and has whipped everything in sight. Jack Walsh, the well known referee, who officiated at the Johnson-Williams championship match in Cuba, thinks "Fat" is a comer. "I have refereed many fights for the big fellow," said Jack, "and he certainly looks good. With the right kind of man to bring him along he would develop into a champion. He has speed and a terrific punch and from what I know of him, has plenty of stamina. Willard is a great fighter, but he was no better at the start than this man." The California man has about made up his mind to turn professional, and is casting about for a live manager. It is probable that Jack Kearney, who managed Billy Murray and Red Watson, will get hold of him. If he does, he will campaign him through the east the coming fall.

Welsh Gives Wolgas Chance.

Freddie Welsh, the lightweight champion, is to give Ad Wolgas a chance at the title after all. They are to meet in a 15-round battle at Denver the afternoon of July 6. Jack Kanner, who is promoting the affair, intends to stage it at the old Stockard stadium, a place that will seat 15,000 spectators.

Wolgas has been clamoring for a long time to get a chance at the lightweight crown, claiming that he could beat Freddie Welsh under any conditions and at any time. He will have a chance to stand up to the champion when the 15 rounds are over. Freddie Welsh will still be champion and about \$10,000 richer. There is no doubt that the fight will be a close one, but if Wolgas can put up a good battle for that distance, but he is far from being the Wolgas of old and with Welsh in any kind of condition, it is hard to see how the challenger will defeat Wolgas without a great deal of trouble.

Duffy for a Welterweight.

It looks as though Jimmy Duffy, the clever Buffalo lightweight, will have to advance into the welterweight ranks. Jimmy has been fighting as a lightweight for some time, but of late has found it mighty hard to make the limit of 135 pounds. When he boxed with Johnny O'Leary, the Canadian champion, a week ago, he scaled 142 1/2 against 124 1/2 for the Canadian. There is no doubt that the light weight of the same poundage who will find it hard to get into the lightweight class next season.

Joe Williams, the Ohio fighter, has been taking on weight and finds it difficult to get within hailing distance now. The same can be said for Freddy Welsh, Joe Williams, River Hannan and Willie Pichie. They do not like to think of getting out of the lightweight division, but when they cannot make the weight they have no right to stay in it. They should advance into the next class, the same as Johnny Killane should advance into the lightweight ranks and "Big" Williams into the featherweight division.

JEWS FARE MUCH BETTER UNDER

GERMAN THAN RUSSIAN CONTROL
New York, June 26.—The condition of Jews in Russia under German and Austrian rule is undeniably better than it was under Russian rule, according to Isadore Hirschfeld, who recently returned from the war zone in Holland, Galicia and Russia. In an address here before the Hebrew Sheltering Aid and Immigrant society, for which he went abroad, he declared: "The best possible outcome for the Jews will be Germany's retention of Russian Poland."

50,000 BAD EGGS SEIZED BY TEXAS FOOD INSPECTORS

Austin, Tex., June 26.—As a result of the aggressive campaign started some time ago by state pure food commissioner, Robt. H. Hoffmann, on "bad eggs," over 50,000 bad eggs have been confiscated and ordered destroyed.

In order to obtain the cooperation of health officers and the egg dealers, the commissioner has had printed 25,000 circulars which are to be distributed to these health officers and dealers calling their attention to the law on this subject.

It is the opinion of the food control officials that eggs which contain yolks stuck to shell, moldy eggs, black spots, mixed rots, added eggs, black rots, and any other eggs which contain wholly or in part filthy, or putrid substance, are adulterated. The federal department of agriculture has also given notice that shipments containing more than five percent of bad eggs, will be regarded as violating the food and drug act.
